

“Literary Pavers” is a public art project initiated in 2006 and completed in 2013. It is offered to the community by the Pocatello Arts Council.

Literary excerpts and author identification have been inscribed into granite pavers and installed into the brick edging along the sidewalks of Old Town Pocatello.

The purpose of “Literary Pavers” is to recognize a broad range of literary forms and to publicly appreciate the vibrant and highly talented literary artists in our community.

Join us in this project by stopping to reflect on the work of these excellent authors who, through their writing, offer artistic insight into Pocatello and the surrounding area.

"Art washes away from the soul
the dust of everyday life."
~ Pablo Picasso
